

**Plate 1**  
**Individual Hazardous**  
**Substance Sites by**  
**Consolidated Operable Unit**  
(As of Sept. 2002)

- Industrial Area Operable Units**
- Industrial Area OU
- Buffer Zone Operable Units**
- Buffer Zone OU
  - Operable Unit 5
  - Operable Unit 6
  - Operable Unit 7

**NOTES:**  
Former Operable Unit 9 (OU9), that is now part of the Industrial Area Operable Unit, is shown on a separate map for clarity. (See Plate 2.)  
HSS NE-142.22 (Indiana Flume Pond) not shown due to map scale.

- Other Map Features**
- Buildings and other structures
  - Solar Evaporation Ponds (SEPs)
  - Lakes and ponds
  - Streams, ditches, or other drainage features
  - Fences and other barriers
  - Paved roads
  - Dirt roads
  - Industrial Area Operable Unit Boundary

**DATA SOURCE BASE FEATURES:**  
Buildings, fences, hydrograph, roads and other structures from 1994 aerial photo data captured by EG&S P&L, Las Vegas. Digitized from the orthorectified 1995 Individual Hazardous Substance Sites (IHSS) DCE, 1992, HRR Report and Subsequent Updates. All IHSS and PAC's boundaries are approximate. For more detail, please contact Environmental Restoration (N-4605) for the following document:  
Historical Release Report (HRR) September 2002 Annual Update
